GROUP TRAVEL / PERSONAL ACCIDENT

INTRODUCTION

Due to the vibrant nature of the finance industry, and more developing business sectors in the Channel Islands, we understand there are significant levels of off-Island travel, whether this is to the UK, Europe or further afield. Business travel often represents a large outlay and risk to Channel Island businesses whether the trip is cancelled or curtailed due to adverse weather conditions in the Channel Islands or the risk of employees becoming injured or ill whilst away. The volume of Islanders that travel for business is significant year-on-year and we understand the costs and implications involved.

Our professional team here at Islands would be delighted to assist you in sourcing a policy that suits your business' needs and gives you comfort whilst your staff are travelling, as well as protecting your company's financial position.

COVER AND BENEFITS

Personal Accident - Coverage for your employees whilst they are travelling on business, with options to include sickness within the personal accident section. We can help make sure that you have all potential scenarios covered.

Cancellation or Curtailment Expenses - In the unfortunate event that your trip is cancelled or cut short due to an insured circumstance, such as adverse weather, death or illness of a close family member or travelling party, this policy makes sure you are able to recover costs of the booking.

Loss or Damage to Baggage & Personal Belongings - It's important to ensure costs can be recovered should your baggage or personal belongings be lost or damaged whilst away on business. Depending on the nature of the trip we understand certain items may be costly to replace.

Medical Expenses - Coverage for your employees should they require medical or hospital treatment. Depending on the unfortunate circumstance and location these costs could be vast, so it's important to make sure you have a policy that can give you peace of mind.

Travel Disruption - Following travel disruption due to adverse weather, make sure you have cover for additional costs and expenses in extending the trip due to reasons outside of your control.

Employee Replacement Expenses - Should your employee be hijacked, pass away or become temporarily or totally disabled whilst away on business, not only will the policy cover the cost in returning your employee to the Channel Islands, but also the costs of sending another employee to complete the business trip.
